PROFESSIONAL SUMMARY

Motivated Diploma in Computer Science & Engineering graduate with a strong foundation in HTML, CSS, and JavaScript. Experienced in building responsive web applications including E-Commerce platforms. Seeking an entry-level Web Developer role to apply my technical skills and contribute to an innovative IT team.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C, SQL
Web Technologies: HTML5, CSS3, Responsive Design
Database: MySQL
Tools: VS Code, MS Office

PROJECTS

E-Commerce Website

HTML, CSS, JavaScript, PHP, SQL

- Developed a responsive, interactive front-end e-commerce web application from scratch.
- Created intuitive, user-friendly web pages and dynamic product display interfaces to enhance user experience.
- Applied core web design principles and modern front-end development concepts to ensure cross-browser compatibility.

Personal Portfolio Website

HTML, CSS, JavaScript

- Designed and built a fully responsive personal portfolio website to effectively showcase technical skills and projects.
- Implemented modern CSS layouts (Flexbox/Grid) to ensure seamless viewing across mobile, tablet, and desktop devices.
- Optimized page load performance and structured clean, readable code.
